

Nudge Club Membership

We offer various subscription models that delegate our experienced team of facilitators and program managers to bring Nudge Club to your school in the capacity of your choice.

We can supply your teachers with training programs that equip them with adaptable facilitation tools, enabling self-sufficiency in implementing Nudge Clubs of their own. We also facilitate entire Nudge Club programs for you, providing an otherwise regular academic year with an undercurrent of cultural change within the school setting. We also conduct teachers' meet-ups that are intentionally designed to impact the teaching community by providing them with space to explore their challenges and struggles as teachers, classroom strategies such as tools for harnessing empathy, and other skills that help everyone excel in their roles by becoming better not at what they do, but how they do it.
